

## Cautions

### Quarantine Information for **Positive** Covid-19 Results

- The status of quarantine (hospitalization/self-quarantine) will be determined based on the patient's health status
  - Hospital (severe and high-risk confirmed patients), home/temporary quarantine facility (Asymptomatic)
  - ※ Patients with mild symptoms will be hospitalized depending on the severity of the symptoms
- (In the case of hospitalization for Covid-19 patients)
  - Treatment costs will be partially/fully covered for travelers from the countries that have an agreement with Republic of Korea to mutually support medical expenses.
- (Asymptomatic patients)
  - Quarantine at temporary quarantine facility  
(Room and food costs to be covered by own expenses)
